

# Michael W. Folonis Architects

## **About Rudy Gonzalez**

Talented as a designer with outstanding attention to detail, Rudy is involved in MW.FA large-scale mixed-use projects from entitlement analysis through construction administration. Prior to coming to MW.FA he worked with a respected California firm that focused on large education and healthcare projects. Though Rudy has worked on significant projects for LAUSD and SBCUSD, his desire to explore a more focused and hands-on approach to design brought him to MW.FA where he is able to express his full range of abilities.

## **EDUCATION**

Bachelor of Architecture from California State Polytechnic University, Pomona
